Club Safety Solutions is here to make your club safer and your life easier. Many clubs do not have the resources to hire a safety director nor the time to learn about all the safety regulations that impact your club's operation. So instead of incurring the expense to hire a safety director, allow this correspondence to introduce a new program called:

### **“SAFETY DIRECTOR” Services**

This will be an annual fee based service that will provide your operation with four critical safety solutions to better enable you to be proactive instead of reactive.

- An annual OSHA 300 log review and injury trends analysis
- Two hours of off-site phone consulting for you, your safety team and /or the Human Resource department
- Copies of published safety articles not posted on my web site
- 24/7 emergency access for any safety concerns

As a current client, if you subscribe to this new service you will be entitled to an additional 10% discount on safety policy adoptions and future site assessments, bringing your total discount to 30%

The annual fee for this valuable service will be \$500.00.

Please anticipate a call from me in the near future. I would appreciate five minutes of your time to discuss the merits of this idea and how it can be implemented immediately at your club.

Yours in Safety,

Alan E. Achatz, CCM, CHE  
President  
Authorized Trainer of OSHA's Outreach Program
